

in celebration of family life

WHAT IS A KITCHEN?

Not just a place to make dinner,
but a place to make memories.

The center of family life,
the heart of your home:

Where little children laugh
Where friends and family gather.

Where they want to be.
Where you want to be.

Tuscan nights and Barcelona mornings are brought home to Ohio with luxurious raised-panel cabinetry and ornate moldings in contrasting custom colors. Designed for beauty and function, this kitchen welcomes family and friends.

Colors from the coolness of the sea and the warmth of the forest reflect today's best thinking. An irresistibly thick, glass countertop, stainless steel and flat panel cabinetry in rift-sawn white oak bring to life the modern zest of this kitchen.
